2.0 Background

RailTel Corporation of India Limited (RailTel) an ISO-9001:2000 organization is a Government of India undertaking under the Ministry of Railways. The Corporation was formed in Sept 2000 with the objectives to create nation wide Broadband Telecom and Multimedia Network in all parts of the country, to modernize Train Control Operation and Safety System of Indian Railways and to significantly contribute to realization of goals and objective of national telecom policy 1999.

RailTel has built Telecom network using SDH/DWDM based transmission systems and high end MPLS-IP routers. RailTel has extensive expertise in building telecom networks. Moreover, RailTel draws its manpower from signal and telecom branch of Indian Railway which has been in the business of construction, operation and maintenance of telecom systems for more than 50 years.

2.1 Network Infrastructure

Indian Railways have seamless Right of Way along **63000 KM** of Railway Track passing through **7000** stations across the country. The stations in major cities are located in central business districts. With the formation of Corporation, about **44,279 KM** of OFC has been commissioned by RailTel thus connecting about **4200** stations across India.

RailTel has followed a layered approach in designing its network for efficient utilization and management of its network. Accordingly, RailTel has created three layers viz. Access Layer, Edge Layer & Backbone layer. Access layer provides minimum of STM-1 bandwidth at stations normally spaced at every 8-10 Kms. The traffic from access layer is aggregated on to the edge layer having STM-16 connectivity which is available in important locations at approx. every 50 Kms. While the traffic from edge layer is finally aggregated on to the backbone layer with DWDM/STM-16 available in important cities/towns.

2.2 Backbone Network

RailTel has built state of the art backbone network using latest SDH & DWDM technology. More than 400 important cities covering over 30,000 RKMs across the country are connected on backbone network with multiple STM-16 (2.5 Gbps) connectivity presently. RailTel has also implemented DWDM network over 10000 RKM.

The complete network is managed by centralized network management system (NMS) located at New Delhi with back up at Secunderabad / Kolkata.

2.3 Licenses & Services

Presently, RailTel holds ISP (Class –A), NLD and ILD licenses. Besides this RailTel has also obtained IP-1 registration. The following services are being offered to various customers:

2.4 CARRIER SERVICES
