Chapter-4			
113/114	4.A.45	Preference to Domestic Manufacturers: The provisions of the Public Procurement (Preference to Make in India) Order 2017 dated June 15, 2017 (and subsequent amendments, if any) by Department of Industrial Policy and Promotion, GoI shall apply to this tender to the extent feasible. The local manufacturers are exempted from experience and past performance criteria, and average annual turnover requirement under financial standing. The criteria for Capability (verifiable evidence that they have manufacturing capability to manufacture the speci-fied quantity and supply the same with in stipulated time period), Equipment and Manufacturing facilities as well as net worth under the financial standing eligibility criteria shall be applicable to local suppliers also	Preference to Domestic Manufacturers: The provisions of the Public Procurement (Preference to Make in India) Order 2017 dated June 15, 2017/ 28Th May, 2018 (and subsequent amendments, if any) by Department of Industrial Policy and Promotion, GoI shall apply to this tender to the extent feasible. The local manufacturers are exempted from experience and past performance criteria, and average annual turnover requirement under financial standing. The criteria for Capability (verifiable evidence that they have manufacturing capability to manufacture the speci-fied quantity and supply the same with in stipulated time period), Equipment and Manufacturing facilities as well as net worth under the financial standing eligibility criteria shall be applicable to local suppliers also Bidders seeking Purchase preference for any particular SOR item shall submit the documents/ declarations etc. as per latest DIPP guidelines and as further stipulated in Rly. Bd letter No. 2015/RS(G)/779/5 dated 26.06.2018 & 03.08.2017 and DOT (Ministry of communications) Gazette dated 29Th August, 2018 or the applicable/associated latest letters if any as on date of opening of the bid. The necessary documentation for the individual items being declared to be Local shall be as per the stipulated guidelines as laid down in above mentioned policy letters and to be signed by the OEM as well as the bidder.
114	4.A.45	1. Bidders seeking Purchase preference (linked with Local content) (PPP-MII) shall be required to meet/exceed the target of Local Content (LC) of _50% _%. 1.3 At the bidder stage the bidder shall provide Break-up of “Local Component” and “Imported Component” in the prescribed format as enclosed Annexure – VII and shall be uploaded by the bidders along with their price bid in the e-procurement portal. 10.3 If the bidder does not fulfill the obligation after the expiration of the period specified in such warning. RailTel shall initiate action for blacklisting such bidder/successful bidder.	Bidders seeking Purchase preference (linked with Local content) (PPP-MII) shall be required to meet/exceed the target of Local Content (LC) of <u>50%</u> combined for Goods and services for the whole bid amount as summarised in Annexure-VII . The cost of AMC shall not be considered in these calculations. Annexure VII must be supported by the appropriate annexures indicating the details accounted in it. 1.3 At the bidding stage, the bidder shall provide Break-up of “Local Component” and “Imported Component” in the prescribed format as enclosed Annexure – VII and shall be uploaded by the bidders along with their price bid in the e-procurement portal. The individual items counted as local if fulfil the criteria as laid down in 1 above shall be treated to be domestic for full value once they meet the prescribed criteria of L.C. If the successful bidder/OEM does not fulfill the obligations or submits false declarations for availing PMA advantages, strict action against such bidder and OEM shall be taken up as per latest DIPP guidelines which includes debarring for two years.
117		Clauses 10.4 & 10.5	These clauses stand deleted.
Chapter-8			
238	8.23	The proposed Helpdesk tool should be Axelos Gold level/Pink Elephant certified on at least 11 ITIL 2011 processes of all the ITIL processes that are the most mature way to demonstrate that at least three IT organizations : Incident management, Problem Management, Change Management, Knowledge Management, Service Level Management, Service Asset and Configuration management, Service Catalogue and Request Fulfilment, etc. The certification copy to be submitted.	The proposed Helpdesk tool should be Axelos Gold level/Pink Elephant/Glenfis certified on at least 2 ITIL 2011 processes and complying at least 11 (undertaking on OEM’s letter hed to be submitted) of all the ITIL processes that are the most mature way to demonstrate that at least three IT organizations : Incident management, Problem Management, Change Management, Knowledge Management, Service Level Management, Service Asset and Configuration management, Service Catalogue and Request Fulfilment, etc. The certification copy to be submitted.
211	8.3.2.3.1.3	The FRS will get the UHD feed from FHD or 4K UHD camera/Recording Server/VRPU at RPF/GRP Thana/Post for running Face Recognition algorithm and send alarms to designated clients at RPF/Data Centre/others.	The FRS will get the UHD feed from 4K UHD camera/Recording Server/VRPU at RPF/GRP Thana/Post for running Face Recognition algorithm and send alarms to designated clients at RPF/Data Centre/others. However if felt necessary at some stage, FRS may also be required to be run on FHD feed received from any FHD camera selectively.
217	8.11.15	xxv. Traffic prioritization: Flow-based QoS with internal and external (a.k.a., remarking) prioritization xxviii (2). Transparent LAN Services with Service VLAN (SVLAN) and Customer VLAN (CVLAN) concept.	xxv. Traffic prioritization: Flow-based QoS with internal and external prioritization xxviii (2). Transparent LAN Services with Service VLAN (SVLAN) and Customer VLAN (CVLAN) concept or Q-in-Q"
231	8.18	1. Bidder to propose an Open (Non-proprietary) hardware-based unit to be installed at Stations. 2. Video Recording & Processing Unit shall be installed at each platform/station and shall have Software for Video Management and Video Recording as defined in Tender Clause 8.3. In case of MPLS/IP network connectivity failure, video data and alarms would be stored locally at the Video Recording & Pro-cessing Unit for that duration and would transfer these data automatically to RPF/GRP Thana/Post when the network recovers without any impact on the sys-tem operations. 3. Video Recording & Processing Unit (VRPU) shall receive VA and FRS alerts from the respective RPF/GRP Thana/Post. 4. Technical Specifications and Requirements: As per RDSO Specification Clause 4.2 or 3.0 of IP Based Video Surveillance System Specification no. RDSO/SPN/TC/65/2016 Revision 4.0 or latest with all amendments. 5. VRPU unit should have RAID 5/6 capability to provide data redundancy.	1. Bidder to propose an Open (Non-proprietary) hardware-based unit to be installed at Stations. 2. Video Recording & Processing Unit shall be installed at each platform/station and shall have Software for Video Management and Video Recording as defined in Tender Clause 8.3. In case of MPLS/IP network connectivity failure, video data and alarms would be stored locally at the Video Recording & Pro-cessing Unit for that duration and would transfer these data automatically to RPF/GRP Thana/Post when the network recovers without any impact on the sys-tem operations. 3. Video Recording & Processing Unit (VRPU) shall receive VA and FRS alerts from the respective RPF/GRP Thana/Post. 4. Technical Specifications and Requirements: As per RDSO Specification Clause 4.2 or 3.0 of IP Based Video Surveillance System Specification no. RDSO/SPN/TC/65/2016 Revision 4.0 or latest with all amendments. 5. VRPU should be provided for 16/32/64 channels depending upon the number of cameras for cost optimisation and this shall be applicable for all the three types of permissible devices viz edge device, NVR and server. 6. RAID 5/6 redundancy is not required in VRPU for cost optimisation as the same is already provided in the external storage provided in RPF/GRP Thana/Chowki. This shall be applicable for all the three types of permissible devices viz edge device, NVR and server.
