Corrigendum/Amendment - I

SLT: RailTel/e-Tender/SLT/SR/DC/2024-25/33

Date: 02.12.2024

Sub: Implementation of Kubernetes based orchestration platform

Ref : RailTel/e-Tender/SLT/SR/DC/2024-25/33, Dt: 18-11-2024.

With reference to the above, Corrigendum-I is issued herewith for the following item:

Tender CI No. & Item No	As per tender document	To be read as
SI No.3, Technical Specifications / Requirement	Replace outdated virtualization with containerization technologies, specifically Kubernetes	The solution should provide options to enable existing environment with the capability to migrate to containerization technologies
SI No.5, Technical Specifications / Requirement	Implementation of Kubernetes clusters to support modern cloud-native applications at RailTel's Hyderabad data center	Implementation of Kubernetes or equivalent clusters to support modern cloud-native applications at RailTel's Secunderabad and Gurugram data centres
SI No.8, Technical Specifications / Requirement	The solution should provide options for smooth migration from legacy VMware-based systems to a modern, Kubernetes-based architecture. The platform should provide complete lifecycle management of Kubernetes clusters and should integrate with DevOps workflows to streamline updates and reduce costs that include Low-Code Deployment and End-to-End CI/CD Integration.	The solution should provide options for smooth migration from the existing systems at RailTel data centres to a modern, Kubernetes-based architecture. The platform should provide complete lifecycle management of Kubernetes clusters and should integrate with DevOps workflows to streamline updates and reduce costs that include Low-Code Deployment and End-to-End CI/CD Integration.
SI No.14, Technical Specifications / Requirement	New Item	The Solution must enable RailTel to add/configure new/additional infra to this cluster without any additional licenses/subscription
