Press Release

RailTel bags the Data Centre Champion award at the Express Computer event organised by Indian Express group.

RailTel is providing satisfactory service to multiple Government organizations/departments/PSUs through its own two Data Centres located in Gurugram (Haryana-NCR) and Secunderabad (Telangana).

RailTel Data Center is having it's own Security Operation Center which makes it unique if compared with other govt. Data Center service provider.

RailTel Data Center's are MeitY Empanelled for Cloud Service Provider.

This accolade speaks highly of RailTel' commitment to deliver best services to its clients through the best use of cutting edge technology: Shri Sanjai Kumar CMD, RailTel.

RailTel, a Mini Ratna PSU of Ministry of Railways has been conferred with the Data Centre Champion award at the Express Computer event organised by Indian Express group early this month. RailTel has its own two Data Centres located in Gurugram (Haryana-NCR) and Secunderabad (Telangana) and providing satisfactory service to multiple Government organizations/departments/PSUs. All the key components of the data center design like routers, switches, cybersecurity systems, Next Generation firewalls, storage systems, servers, network and application-delivery controllers etc. use state of the art/latest technology and are best in their respective class.

The Secunderabad data centre is RailTel's and Indian Railways' first data center, and the country's eighth, with Tier -3 certification for design and facilities by UPTIME Institute USA.

RailTel Data Centers are MeitY Empanelled for Cloud Service Provider.

Through data centers, RailTel is offering many services like Co-Location, Dedicated Hosting, Cloud Computing, Disaster Recovery Site Services, Other IT/Security Related Services Namely Load balancing services, Application hosting, bandwidth services, Advanced Next Generation Firewall Services, Aadhar Identity Services, VPN Services, Endpoint security services, Web application firewall services, etc.

RailTel Data Center is also having its own Security Operation Center which makes it unique if compared with other govt. Data Center service providers.

RailTel's Helpdesk and Technical support team is available 24x7 to provide technical assistance to its customers which includes many prominent Government PSUs & private sector organizations in different sectors of economy.

RailTel bagged the award as it demonstrated the best usage of technology in the data center domain to deliver distinct benefits to the stakeholders.

Talking about it, Shri Sanjai Kumar Chairman & Managing Director, RailTel said, "This accolade speaks highly of RailTel' commitment to deliver best services to its clients through the best use of cutting edge technology.

RailTel's Data Centre services help customers to enhance infrastructure efficiency, improve business agility, optimize operational expenses and improve scalability and data centre privacy. Our Data Centers are located at India only and hence cloud services/data resides in Indian geography only, fulfilling the direction of Govt. of India to store the Govt. Data in India."

About RailTel:

RailTel, a "Mini Ratna (Category-I)" Central Public Sector Enterprise under Ministry of Railways, is one of the largest neutral telecom infrastructure & ICT Solutions & Services providers in the country, owning a Pan-India optic fiber network covering several towns & cities and rural areas of the country. Along with a strong a reliable network of 61000+ RKM of Optic fibre, RailTel has two MeitY empaneled tier III data centers as well. With its Pan India high-capacity network, RailTel is working towards creating a knowledge society at various fronts and has been selected for implementation of various mission-mode projects for the Government of India in the telecom field. RailTel offers a bundle of services like, MPLS VPN, Telepresence, leased line, Tower Co-location, Data center services etc. RailTel is also working with the Indian Railways to transform railway stations into digital hub by providing public Wi-Fi at railway stations across the country and 6105+ stations are live with RailTel's RailWire Wi-Fi.
