1) Part 1- RailTel - Introduction

RailTel is an information and communications technology (“ICT”) infrastructure provider and are one of the largest neutral telecom players in India. We are a Mini Ratna (Category-I) Central Public Sector Enterprise, wholly-owned by the Government of India and under the administrative control of the Ministry of Railways. RailTel was incorporated on September 26, 2000 with the aim of modernizing the existing telecom system for train control, operation and safety and to generate additional revenues by creating nationwide broadband and multimedia network by laying optical fiber cable by using the right of way along railway tracks.

As on date, RailTel’s optic fiber network covers over 61000 route kilometers and covers over 6108 railways stations across towns and cities in India. The transport network is built on high-capacity dense wavelength division multiplexing (“DWDM”) technology and an Internet protocol/ multi- protocol label switching (“MPLS”) network over it to support mission critical communication requirements of Indian Railways and other customers.

RailTel do have Data centers in Gurgaon/Haryana and Secunderabad/Telangana to host and collocate critical applications for customers including the Indian Railways. In addition to strategic and critical network infrastructure services, we also undertake various ICT projects for the Indian Railways, central government and state governments, including various signaling projects for Indian Railways.

RailTel offer a diverse range of services across industries. Our portfolio of services can be broadly classified as below:

Telecom Network Services

National Long Distance (“NLD”) Services: We provide digital capacity to carry long distance telecommunication services and includes various tele-services including voice, data, fax, text, video and multimedia. As part of our NLD services, we offer our enterprise customers with: (i) leased line services; and (ii) MPLS based virtual private network (“VPN”) facilities.

Internet Service Provider (“ISP”) Services: As part of our ISP services, we offer enterprise customers Internet leased line services with multiple bandwidth options ranging from 2 MBPS and above across India. We also offer retail broadband services through our ‘RailWire’ platform.

Telecom Infrastructure Services

Passive Infrastructure (“IP-1”) Services: We provide storage, power, cooling, and physical security for servers and networking equipment of our customers and connect them with a variety of telecommunications and network service providers. In addition, we provide space on microwave towers for collocating base transceiver stations (“BTS”) for telecom operators, small cell sites for extending their mobile coverage and space for collocating mobile switching centers. We also provide single core dark fiber for transmission of digital video signals to

multiple system operators (“MSOs”) for cable distribution.

Managed Data Center and Hosting Services

Data Centre and Managed Hosting Services: We offer a variety of data centre services including Infrastructure as a Service (“IaaS”), dedicated hosting, managed services, cloud computing, managed e-office services, disaster recovery services, Aadhar authentication services and other IT related services such as load balancing services, application hosting, bandwidth services and advanced firewall services.

Telepresence Services (“TPaaS”): We offer [end-to-end], high-definition, secure, hosted multitenant video conferencing facility bundled with required bandwidth as a service.

Security Operations Centre as a Services (“SOCaaS”):

RailTel SOC provides centralized and consolidated cybersecurity incident prevention, security event monitoring, detection and response capabilities, and supports other business unit requirements.

RailTel SOC has the following capabilities:

1. Security event monitoring, detection, investigation and alert triaging.
2. Security incident response management, including malware analysis and forensic analysis.
3. Threat intelligence management.
4. Security device management maintenance.
5. Threat and vulnerability management.
6. Security training.
7. Compliance reporting/management.

SIEM solution is the core of the RailTel SOC technology stack. Other solutions that are part of the stack includes Endpoint detection and response which provides host level telemetry for both near real time as well as forensic investigation, network traffic analysis used to investigate alerts and obtain additional context about suspicious activity in the network, packet capture for forensics, sandbox for malware analytics, vulnerability assessment tools, web application and network firewalls, auto ticketing tool. RailTel also has qualified manpower that runs SOC. RailTel can provide both offsite and onsite security solution specially for government organizations that cannot send data offsite due to compliance purposes.

Projects (System Integration Services)

ICT Hardware, Software and Service System Integration Projects: We collaborate with empaneled partners and OEMs to undertake ICT hardware implementation, software delivery and digital transformation projects including creation of state wide area network (“WAN”) and its maintenance, data center and facility management services, Wi-Fi projects, city surveillance projects, ‘Smart City’ projects, laying of state wide fiber optic network and its maintenance, implementation and maintenance of end-to-end IT applications of enterprises.

Digital Services: We also collaborate with empaneled partners who offer solutions/ applications that are hosted on our data centers, we offer digital services including unified communications, Wi-Fi as a service, e-tendering/ e-auction/ smart payments and disaster management services.

Other Services: Other services offered by us include consultancy services for ICT services and solutions and signaling services including signal design and design automation software tools for the Indian Railways.

Our operations are certified with various certifications including ISO 9001:2015, ISO/IEC 27017:2015, ISO/IEC 27018:2019, ISO/IEC 20000-1:2011, ISO/IEC 27001:2013 and CMMI Maturity Level-4 for our quality management systems, information security management systems, and service management systems, respectively.

2) Part 2 - Scope/Intent of EOI and Eligibility Criteria

2.1 Scope/Intent:

- 2.1.1 RailTel aggressively entering into Project Business and intending to expand its market share into various technology offerings such as Telepresence, Maintenance of SWAN, Cloud services, Content Delivery Platforms, Storage and Server, Telecom Networking, Data Center, Transmission Network, Data Network, Wi-Fi Business, Network Solution, System Integration, IoT, AI, ML, etc. thereby building up its formidable presence in the telecom and IT industry, in order to fulfill its objective of multi-fold growth in its turnover and profitability. In line with RailTel through this EOI desires to empanel business partners/business associates who can serve as growth engine for RailTel and can generate more and more business and provide Business Solutions to RailTel's Customers.
- 2.1.2 The purpose and intent of this EOI is only to empanel the business partners (in line with eligibility stipulated in this EOI) who can be associated with RailTel to support/participate/acquire business/opportunities from end customers across industry in various fields. However, final selection of any partner (Out of empaneled partners) for fulfilling the customer's requirement will be done through separate EOI process based on the customer's requirement and eligibility. To get the information related to EOIs for customer requirement it is suggested and advised that RailTel website i.e. www.railtelindia.com may please be seen on daily basis and any miss on this account will be the sole responsibility of Partner.
- 2.1.3 RailTel does not ensure confirmed business during validity of empanelment.
- 2.1.4 The empaneled partners shall abide by all terms and conditions for the complete period of empanelment.
- 2.1.5 The empaneled partners shall inform RailTel proactively if any opportunities are identified for bidding.
- 2.1.6 The applicants, after submitting the response to this EOI, agree with RailTel for honoring all aspects of fair-trade practices.
- 2.1.7 The applicants shall bear all cost associated with the preparation and submission of the response to this EOI.
- 2.1.8 RailTel reserves the right to accept or reject any/or all application(s) without assigning any reason whatsoever. RailTel's decision in this regard shall be binding and final.

2.2 Eligibility Criteria and Documents Submission.:
