Boeing set to dent Airbus' dominance over India with 737 Max order

ANURAG KOTOKY & SIDDHARTH PHILIP
New Delhi/London,
November 11

BOEING MAY WIN a crucial deal as early as this weekend for some 70 to 80 737 Max jets from Akasa, a Mumbai-based carrier backed by billionaire investor Rakesh Jhunjhunwala, according to people familiar with the matter, denting Airbus' dominance in what was until recently the world's fastest-growing aviation market.

The airline was earlier reported by Bloomberg News to be in talks with Boeing about the planes. A deal could be announced during the Dubai Airshow, which kicks off on November 14, some of the people said.

An agreement of that size to take the most popular variant of the 737 Max family — which most regulators have now approved to fly again following two deadly crashes — could be valued at as much as \$10 billion at current list prices, although discounts are common in large orders.

Any transaction would allow Boeing to establish itself firmly in a market dominated by Airbus aircraft. Market leader IndiGo is the world's largest customer for the European planemaker's best-selling jets with orders for more than 700 planes, while the Indian affiliates of Singapore Airlines and AirAsia Group all use Airbus A320 models.

Low-cost carrier SpiceJet is currently the only Indian customer for Boeing's 737 Max jets, after Jet Airways India collapsed due to debt issues in 2019.

Boeing shares advanced as

much as 1.9% in New York. They were up 1.5% to \$221.69.

Representatives for Boeing and Akasa declined to comment.

Akasa, operated by SNV Aviation, plans to offer flights across India starting in the summer of 2022 after it received initial approval from the country's civil aviation ministry a month ago.

The airline has held discussions with Airbus, but Boeing jets could be delivered earlier, with the first batch of 10 coming in the first half of next year and the rest within three years, one of the people said. Akasa is still working out the finer details of its launch, including its brand identity, another person said.

Akasa is among a handful of airline startups cropping up across the globe, as tycoons and entrepreneurs take advantage of a slump in plane-lease rates after the pandemic slammed air travel and hundreds of jets were parked in deserts and airports.

The airline is also backed by Aditya Ghosh, a former head of IndiGo, and Vinay Dube, a Delta Air Lines veteran who also helped run Jet Airways. —BLOOMBERG

WHO nod to Covaxin to significantly ease travel for vaccinated Indians: MEA

THE WHO'S APPROVAL to Covaxin earlier this month would bring about a significant improvement in the ease of travel for vaccinated Indians and India is also taking up with countries that are issuing separate orders for individual vaccines to recognise the Bharat Biotech-manufactured Covid-19 jab, the ministry of external affairs (MEA) said on Thursday.

MEA spokesperson Arindam Bagchi said 96 countries have either accepted WHO-approved vaccines, which would include both Covishield and Covaxin, or in some cases only Covishield or Covaxin.

"But we hope that with the WHO approval to Covaxin, this

list will be enlarged and all 96 or more countries will accept both vaccines. I think that is a significant improvement in the ease of travel for vaccinated Indians abroad," he said.

Asked to clarify the government's statement that 96 countries have agreed to mutual recognition of Covid-19 vaccination certificates with India, Bagchi pointed out that on the ministry of health and family welfare webpage as well as on that of the ministry of external affairs, one will see that as on November 9, there are two types of lists — one high risk category countries and another category A. —PTI

'India's GDP to rise by \$406 bn by 2050 in net-zero scenario'

INDIA'S GDP WILL rise by \$406 billion by 2050 and more than 43 million jobs will be created, as the Asia's third-largest economy leaps towards a net-zero target, according to a report by Observer Research Foundation (ORF).

At the 2021 Climate Change Conference, also known as COP26, Prime Minister Narendra Modi outlined a net-zero emissions target by 2070 for India. Also, India is targeting to increase its low-carbon power capacity to 500 gigawatts (GW) by 2030, and meet 50% of its energy requirements from renewable energy by 2030.

"India's net-zero carbon emissions target of 2070 is momentous and praiseworthy but highly ambitious to the least," an ORF statement said. Structural changes and accelerants required to steer this transformation while balancing the twin goals of sustainability and development are detailed in the report 'Shaping Our Green Future: Pathways and Policies for a Net-Zero Transformation'.

The report, ORF said, is a compendium of essays that offers possible solutions to several pressing questions and aims to provide a roadmap for India's transition to a green economy. —PTI

Finolex Cables expands consumer durable portfolio

FE BUREAU
Pune, November 11

FINOLEX CABLES HAS expanded its consumer durable portfolio with an entry into the room heaters segment. Deepak Chhabria, executive chairman, Finolex Cables, said they were encouraged by the customer response to their consumer durable products and were looking at expanding the portfolio.

Wires and cables account for nearly 90% of the Finolex business. Finolex has been looking at building upon its success in the cables business and expanding their portfolio in the electrical product segment. The company first

diversified into LED lighting and modular switches and subsequently forayed into other segments. Finolex has till now launched products like electric water heaters, fans, miniature circuit breakers and switches. The company then entered the rigid PVC conduits and fittings business. The room heaters is the latest addition to the portfolio.

Amit Mathur, senior vice president — sales & marketing, Finolex Cables, said the positive response the company received for their water heaters from customers and push from Finolex channel partners led them to get into the room heater segment.

New steps towards inclusiveness

Reserve Bank of India introduces two innovative and customer centric schemes

RBI Retail Direct Scheme

- New avenue for retail investment in government securities
- Retail investors can easily open and maintain their government securities account online with the RBI, free of cost
- Buying and selling of government securities by retail investors on the digital platform

Reserve Bank - Integrated Ombudsman Scheme

- 'One Nation-One Ombudsman' with one portal, one email and one address
- Single reference point for customers to file complaints, submit documents, track status and provide feedback
- Integrated scheme for customer complaints against RBI regulated entities
- Toll-free number for assistance in filing complaints and obtaining information on grievance redress, with multi-lingual support
